

While other banks are taking, Heritage South is giving!

This year, we're giving **well over a quarter of a million dollars** in interest rebates and bonus dividends to almost 12,000 of our members. Not only is that an unexpected windfall for our members just in time for the holidays, it's also money that stays right here in our community to help everyone grow and prosper.

So while you're wondering what your bank has done for you lately, remember that we still offer free checking accounts and debit cards, as well as the lowest loan rates around.

Don't you think it's about time you discovered the benefits of being a member instead of a customer? After all, it's your Heritage!
